

Resolution – Approval of Construction Contract for T360 Friendship-Rutherford Storm Hardening

Jonathan Greene | Chief Operations Officer - Transmission

T360 Friendship-Rutherford Storm Hardening

- Project approved in 2024 Capital Improvement Plan
- The 4.5 mile transmission line will be rebuilt with steel monopole structures, bundled Drake conductor, and OPGW
 - A portion of the circuit shares a corridor with two other circuits, T416 Dripping Springs-Rutherford and T316 Rutherford-Buda. The triple circuit section is 0.9 miles long and all three circuits in this section will be rebuilt as a part of this project.
- The project is needed to meet storm hardening requirements. As a result of the design, this will also enhance system resiliency and increase the capacity of the transmission line for area load growth.
- Requesting approval to award construction contract to the selected contractor and for the amount as stated in the confidential term sheet
- Construction is scheduled to begin July 2026 and complete in April 2027
