

Resolution – Approval of Construction Contract for T318 Blanco-Devils Hill Overhaul

Jonathan Greene | Chief Operations Officer - Transmission

T318 Blanco-Devils Hill TL Overhaul

- Project approved in 2024 Capital Improvement Plan
- The existing transmission line structures will be replaced with new 138kV steel structures capable of supporting 2 circuits. Only one circuit will be installed as a part of this project. New bundled Drake conductor and OPGW will be installed along the entire length of the transmission line.
- Improves system reliability and increases the capacity of the transmission line
- Requesting approval to award construction contract to Axis Power for amount as stated in the term sheet
- Construction is scheduled to begin February 2026 and complete in September 2026
