PEC's Support of International Dark Sky Community Recognized by Mayor Foulds, Dripping Springs

“On behalf of the City of Drippings Springs, I’d like to thank the Pedernales Electric Cooperative (PEC) and its staff for working with city staff and our lightning consultant to ensure that the new street and area light fixtures to be installed in Dripping Springs will comply with the city’s Outdoor Lighting Ordinance”

- Mayor Bill Foulds, Jr.

January 21, 2022

Ms. Julie Parsley
Chief Executive Officer
Pedernales Electric Cooperative
julie.parsley@peci.com

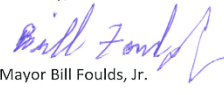

Dear Ms. Parsley:

The City of Dripping Springs is proud of its International Dark Sky Community designation and our advocacy efforts for the preservation and protection of the night sky. On behalf of the City of Dripping Springs, I'd like to thank the Pedernales Electric Cooperative (PEC) and its staff for working with city staff and our lighting consultant to ensure that the new street and area light fixtures to be installed in Dripping Springs will comply with the city's Outdoor Lighting Ordinance.

It is my understanding that Michelle Galloway, Director, Engineering Materials, Standards and GIS, was very helpful by providing information to city staff, considering city staff and consultant review comments about the lighting fixtures, and answering their questions. Other PEC staff members participated in the communications, including Jessica Caroline Tinsley, Dawn Southwell, and Lana Middleton and I'd like to recognize them as well as Michelle Galloway for their assistance.

We appreciate the PEC's night sky advocacy efforts and cooperation. We look forward to receiving an inventory of the city's lighting fixtures and working with PEC staff and subcontractors to replace/remove fixtures in Dripping Springs, which will improve our night sky quality.

Sincerely,

Mayor Bill Foulds, Jr.

Open spaces, friendly faces.
