To Whom It May Concern,

I'd like to submit this email as a request for PEC to start a broadband service. I live on the far east side of Blanco and internet is almost impossible here.

5 years ago I started working from home to be able to live in the Hill Country without commuting to San Antonio. However, I have found that having consistent internet connection poses quite the issue for this.

The more people in the area that I chat with, the more I find that I'm not the only one encountering this obstacle.

Hopefully internet won't continue to be a major struggle in the future for this area.

Best Regards,  
Elizabeth Berko Brown
