VERY SATISFIED	We should have this statewide!
VERY SATISFIED	Thanks for making it simple to vote.
VERY SATISFIED	Ethics seem to be an issue for PEC's board. Jim Powers profits off of board members across the state. Take a look at his employees/contractors, many are sitting school board members. As a former school board member, this is wrong and unethical.
VERY SATISFIED	simple, straightforward and has information to assist voting
VERY SATISFIED	Easy to access and it worked. What a nice surprise!
VERY SATISFIED	I appreciate all of the reminders by email. The process was very straight forward and easily executed. I am hopeful that this email service will increase participation and awareness. Being able to read the bio's and vision statement for each candidate is a great help. It is still incumbent for the voter to verify authenticity and veracity of the candidates. Thank you for the entire combined service.
VERY SATISFIED	Really appreciate not having to create an account, password, etc... to vote. Well done!
VERY SATISFIED	Jim Powers sent us emails claiming to be PEC official business when it was actually from his campaign. He should be impeached.

VERY SATISFIED	Mail-in Ballot was defective in design. It suggested by the instructions and wide placement of alternatives to vote for the Incumbent Powers. VERY SATISFIED	I do wish the candidates all had a similar format on their bios. I'm okay with what they did but I would like to see a standardized section at the top or bottom that states their specific, bulletized goals or outlook on some specific issues. If they don't have any, that's a red flag that they don't know about the job or haven't done any research. We are voting for tasks to be accomplished, not just add work history bullets on their resumes.

VERY SATISFIED	Simple process. Nice that you sent the bios via mail and they are also online. I would suggest in the future that you place the candidates in alphabetical order based on their last name. It seemed to show favoritism towards Mr. Watson upon opening it.
SATISFIED	It would be nice to have a link in the email with information regarding any future meetings.
SATISFIED	Please make it easier to see the link for voting. It should be in large letters in a prominent place, not inconspicuous as it was this time.

SATISFIED	The voting itself was very easy. I never received an email with the voting passwords, however, until I researched it and requested one with an individual inquiry.
SATISFIED	Having the candidates information easily accessible was a positive.
SATISFIED	Vote button should be easier to find. Expected it to be dominate since you're looking for people to vote. Otherwise, direct people to top of web page.

SATISFIED	Web voting process was easy, but the messaging of Mr. Powers during the campaign--and the unauthorized use of my email address--greatly undermines my confidence that PEC governance has really been cleaned up. Looks like more cronyism and less transparency at PEC--still or again?
SATISFIED	Sure makes this easier. However, Members of the PEC Coop need to be made more aware how easy this is.
SATISFIED	Could be smoothed out aesthetically to help the user navigate at certain points, but didn't take much time and felt pretty official. I had to look up which district I'm in, but I appreciated that all the candidate information was in one place. Wish the government could manage that better.
SATISFIED	Wasn't clear on the PEC website how to do vote this way. The paperwork that arrived in the mail was straightforward however.

SATISFIED	The vote now wasn't available on the mobile app but that is the default when using your phone. Then on the mobile web site, the link was really buried at the bottom of the navigation. But once there, it was super easy! Thank you for making this available online.
SATISFIED	I found it a bit challenging. There were too many different instructions on the website. Finally voted after I got the main-in ballot.
SATISFIED	The first time I clicked on confirm ballot the system went to a screen that had me timed out and told me to log in again with my election ID and password. SATISFIED	With the amounts of money that these positions are paid, there needs to be stringent security regarding the accuracy of the votes. This should fall right in with the security that all the PEC IT structure should already have in place so should be easy to implement. Allowing the coop members to know the security measures should also be transparent so that people can have trust in the PEC as a whole.
SATISFIED	Make the Submit Button separate from the Change Button and maybe a different color so it is clear and visible.
SATISFIED	A little unintuitive regarding finding where on the website the ballot was.
SATISFIED	It would have been reassuring to print out the ballot marking after the ballot was submitted. As it is, the ballot marking only prints with a warning about how it hasn't been submitted yet, which does not show my actual cast ballot.
SATISFIED	I wasn't aware, until I received a notice from a candidate, that the ballot process had begun. I think there should be information about the election for 2 or 3 months on my bill so I will have time to consider my options.
SATISFIED	The electronic voting method is endorsed; provided that proper security is maintained at all times.
SATISFIED	Nice to be able to vote online and not be limited to a mail-in ballot only.

SATISFIED	This is a very convenient voting system. The candidate bios were very helpful. Thank you for having this web based voting procedure!
SATISFIED	Make the actual vote button much larger and in the center of the screen in red to clearly distinguish it from everything else (i.e. like a traditional voting booth).
SATISFIED	Can i get a confirmation? Thought there would be a button to select for email confirmation after ballot was cast.
SATISFIED	Easy
SATISFIED	Convenient.
SATISFIED	Quick easy and effecient.
SATISFIED	Should maybe give an option to not receive the voting material if going to vote online and all information is available online. It seems like a waste of paper.
SATISFIED	The voting process is fine, but the questionnaire per candidate should be more specific. Ask questions on topics of concern so that we can make an educated decision.Example: Is a candidate for or against the green energy providers.I don't care how many boards someone has been on.
	Another note: nowhere is it mentioned how much a board member is paid annually. I can't find it anywhere on your site.

SATISFIED	took me awhile to find the vote now button. it should be in the box where you are providing all the voting information, not a button at the top
SATISFIED	It is good and convenient.
SATISFIED	Casting my voting ballot online seems efficient, and trouble free. Let's hope it's secure and safe. As I'm sure that you're aware several companies have been hacked in the last few years (Quest Diagnostic, Lab Corp. recently) and this breach in security is getting to be a bit much.

SATISFIED	PROCESS WAS STRAIGHT FORWARD.
SATISFIED	MAGA!
NEUTRAL	More of the information on candidates' backgrounds needs to be vetted - such as which cities with electrical units Kenneth served with and for how long each.
NEUTRAL	I had to hunt around a bit for the "VOTE NOW" button. It should be big and obvious...and not the same size and color as the "PAY NOW" button for online bill pay that customers are used to seeing in the upper-right corner of the screen.

NEUTRAL	Confused as to why I was only able to vote in one district. Thought you changed you voting policy so that I could vote in all district's elections.
NEUTRAL	The voting process is easy. The ability of the candidates to inundate us with campaign emails PISSES me off. I am extremely dissatisfied with this one aspect. Makes we want to move back to Montana where I can get my electrical power from a real utility. At least my rates were cheaper there, all that hydro.
NEUTRAL	Satisfied with the process. However, it seems strange to me that only 1 candidate sent us a direct email. Were customer email addresses made available to all candidates before voting started? If not, I would question the validity of the election.
NEUTRAL	I think the vote now button should have been near the section on voting I didn't think to look on the header rail
NEUTRAL	I had a hard time finding the "Vote Now" button.
NEUTRAL	Continue to reduce electricity price to COOP members. Buy the lowest cost electricity, even if it is not wind or solar. Along RR 2322 PEC replaced a number of relatively new wood power poles. Why? Seemed like a waste of money.
NEUTRAL	You need to list whether a person is a Republican or a Democrat. While some would say that that has nothing to do with a COOP I would disagree since it permeates everything now. I had to look up each person's affiliation before I voted.
NEUTRAL	We mailed in the ballot as well but this did not show it counted so submitting again just in case. Hopefully you have a backend process that verifies first.

NEUTRAL	I found it confusing that the mailed circular and the app both said that voting was available but SmartHub did not have any option to vote. I finally logged on to the website to vote and saw a small font notification that online is only available on the website. What's up with all the hoopla about SmartHub if you can't vote there? Why even mention it as an option? Good grief!
NEUTRAL	Please no phone calls from candidates.
NEUTRAL	Maybe I'm just getting old, but it took me a surprisingly long time to figure out how to vote through SmartHub -- the green "Vote Now" button blended in with all the other links and it wasn't located anywhere near the other information about the election. DISSATISFIED	Had difficulty getting the system to work. Had to logout and try again and it worked.
DISSATISFIED	The instructions did not say to click on the "print ballot summary" BEFORE you "Submit" the ballot, so I was missed the opportunity to print it!
DISSATISFIED	Voting confirmation page is poorly designed as once the confirm vote button is pressed the next page shows two separate places with with "cast ballot" and "change" boxes. Confusing and unnecessary. Why have two lines both repeating same boxes for Cast Ballot" / "Change Vote", same two boxes above and below the candidate voted for. PEC office should have seen this and had it redesigned before voting started. Causes confusion about which "Cast Ballot" box I should hit, Top or Bottom?
DISSATISFIED	The vote button on smarthub is not prominently displayed. Should be multiple links throughout the website for ease. Also, displeased with the use of member emails by Chuck Sellers on behalf on Jim Powers which is against PEC policy.

VERY DISSATISFIED	I had such a hard time accessing where to vote online-a link would have helped, it would be easier once in my account to vote w/o finding the paper info with ID and password.

This information was nowhere to be found on the PEC website or in the email I received. Finally I tried just voting on line where it became evident I'm in District 4. You need an easy way for members to find their district when elections involve more than one district-- we're not born knowing this, after all. I suspect many didn't vote because of this.
VERY DISSATISFIED	Not easy or convenient. ???? Two thumbs down
