Member Thank Yous

Praised PEC's willingness to assist members impacted by COVID-19. She wanted to contribute to COVID-19 Relief Fund since she knows how it feels to be unemployed and unable to pay her bill. She advised her bill is so low in the middle of summer she is just offsetting what she feels she would be paying by her \$50 contribution. She advised if her bill is low again next month, she will call again.

“Our power went out due to a car accident the night of 6/21 and early morning 6/22 in the Forest Oaks neighborhood near 183A & Brushy Creek Rd. I was so impressed with how quickly your team came out and got it back on, especially in the middle of the night. Thank you to those workers, especially who risk their lives and have to show up in the middle of the night in a moment's notice so that our lives aren't disrupted for long.”

“PEC has always restored power at my residence ... in record time. Today (8/2/2020) I reported a power outage. The power came back on shortly after but I forgot to notify PEC. Later in the day, two of your linemen arrived inquiring if my power was still out. There was heavy rain earlier so I know they had a long day. In spite of that, they both had smiles on their faces (they were more than 12 feet away) and wanted to ensure we had power. I appreciated their checking in on me and my elderly mother and providing exceptional customer service. Thank you.”

Over the weekend, I received an outstanding compliment regarding the professionalism and courteous service our agents provide to our members. [A member] called last week to disconnect service because he and his wife are moving outside the service territory. Michele made a lasting impression on [him]! ... He told me he knew PEC had a long tradition of member service, but you took it to another level. He said you were friendly, professional, and very helpful. Michele, thank you for what you do on a daily basis and how you represent the co-op! Outstanding!
