Additional information

Good afternoon! My question is for Mr. Mark Ekrut, Director of District 3. Prior to the election a while back Mr. Ekrut said that installing fiber optic cable to the remote parts of his district would be a priority. We love living out here, but we barely have internet access thru ATT DSL, and fiber optic would make a huge difference. So that is a priority to us, and we suggested to all our neighbors that they vote for you so we could have speedy communication in the future. And we really hope that you can make that happen.

Please tell us how that process is going, and keep us informed!

Best regards,

David Lombardi
