Resolution - Approval of 2020 Operational Expense Budget Amendment for Systems Vegetation Maintenance - R Arellano

Submitted By: Renee Oelschleger on behalf of Richard Arellano

Department: Support Services

Financial Impact and Cost/Benefit Considerations: Expenditures of \$5,800,000; no additional staff time expected (other than ordinary processing requirements).

In order to support ongoing Cooperative vegetation needs, an operational expense budget amendment of \$4,300,000 is requested for the system vegetation maintenance program. An additional amount of \$1,500,000 is needed in district operations for increased localized work (hot shot work and outage restoration) for vegetation maintenance. The total \$5,800,000 budget request would be used to continue trimming trees for the safety and reliability of the PEC system.

BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE COOPERATIVE, that the Board approve an amendment to the Cooperative's 2020 Operational Expense Plan Budget for Systems Vegetation Maintenance; and

BE IT FURTHER RESOLVED, that the Chief Executive Officer, or designee, is authorized to take such actions as needed to implement this resolution.
